Training that fits the way people work *today.*

GameON transforms traditional workplace training into focused microlearning experiences that are engaging, rewarding and easy to complete.
Your employees spend less time away from their daily responsibilities while building the knowledge and confidence they need to perform better, make faster decisions and deliver more consistent results.

Training that delivers measurable benefits

Gamified e-learning courses achieve **90%** completion rates compared to just **25%** for traditional methods.

83% of employees reported feeling more motivated with gamified training compared to just **39%** with traditional methods.

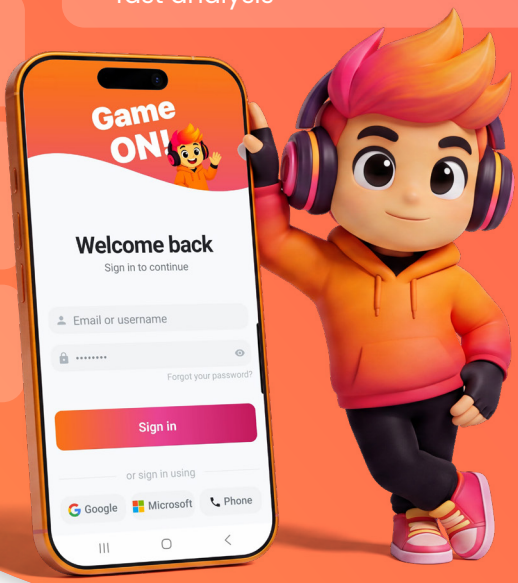

Sales teams using gamified contests and leaderboards see a **3.5x** increase in performance.

Employee engagement increases by up to **150%**, with **90%** of workers reporting higher productivity in gamified environments.

Knowledge retention increases by **45%** within 3 months and up to **70%** over longer periods.

What's new with GameON Mobile?

- Learning Centre with easily accessible content
